

DECOART MEDIA®

NEW TEXTURE PASTE DMM31

Texture Paste is a sandable medium that allows you to add smooth or rough texture and dimension to your craft and mixed media projects. Texture Paste can be tinted or painted with any acrylic paint to create custom colored texture. It can be used as a stencil paste or to create stamped impressions.

- Fast-drying
- Sandable
- Distresses easily
- Apply thick or thin coats for a variety of detail
- Soap and water clean-up

All media paste products are available in an easy-to-use, 4-oz. wide-mouth jar.

NEW BLACK CRACKLE PAINT DMM32

Black paint that crackles as it air-dries to create an eggshell cracking pattern in just one step. It is tintable with Americana Acrylics.

Available in an easy-to-use, 4-oz. wide-mouth jar.

NEW CLEAR MODELING PASTE DMM30

Smooth, flexible, paintable texture that can be used as a stencil paste or to create stamped impressions, textured surfaces, or dimensional designs.

- Excellent tooth absorbency
- Adheres to most surfaces
- Tintable with DecoArt Media Fluid Acrylics

All media paste products are available in an easy-to-use, 4-oz. wide-mouth jar.

NEW HEAVY GEL MEDIUM GLOSS DMM33

Has an extra thick viscosity that is ideal for impasto techniques that allow artists to build texture in mixed media painting.

- Increases paint body
- Can be tinted with DecoArt Media Fluid Acrylics
- Holds peaks/texture
- Dries translucent

Available in an easy-to-use, 4-oz. wide-mouth jar.
